

Landmarks OF NANTUCKET!

Jackie Trudel

I am Jackie Trudel and I am in the sixth grade at Cyrus Peirce Middle School. I enjoy traveling and exploring with my family. I love sports, and am now sailing, playing lacrosse, and swimming on the Dolphins Swim Team.

ATHENEUM COLUMNS

If I want to get into a great book, I go to the Athenaeum and choose one of the millions they have. I love to read, so I go there all of the time. If the Athenaeum disappeared, then I would find it extremely expensive and difficult to find the books I want to read. I would be pretty bored on rainy weekends.

GOLDEN SUNSHINE

The sun room is the newest room in the house, so I call it the "New Room." I love spending any free time I get reading, sleeping, watching TV, playing board games, playing card games, playing guitar, and listening to music in the New Room. The sun almost always shines in there, so it is always warm and bright in the New Room.

THE WINDING PATH

The conservation trail in my neighborhood is my favorite place to walk or ride my bike down on a sunny day. There is a huge pond at the end that I fish in, and, in the unlikely event of snow, there is a pretty decent-sized hill for sledding down. I go down the trail with my friends all the time.

SHEDDING FLOATS

Whenever I am on my way to town, I pass the shed that is covered with floats at Five Corners. I am amazed every time how many floats there are on it. I think they symbolize how boating and whaling were a part of Nantucket's history and how that history stays with us.
