

Landmarks OF NANTUCKET!

Jordan Emery

My name is Jordan and I am thirteen years old. I was not born on Nantucket. It's fun to write about things that interest me. When I take pictures, I move around to find the best angle. I take more than one picture of an object so that I can find the best one. I like to go around the island and take pictures, but it was harder than I thought to get the picture that I wanted of each object.

THE JETTIES

I like the Jetties, because not a lot of islands have about a quarter of a mile of rocks and life around them. You can see people catching crabs and watching seals. It is something everyone remembers coming into Nantucket.

THE ATHENEUM

I enjoy the library because it is a soothing spot where you can learn about Nantucket and other places. It's quiet and gives you a place to think.

BRANT POINT

I love Brant Point because it's the first place you see when you come into Nantucket. Your family can go down and wave at you. It's fun to climb around the rocks.

THE CREEKS

In the Creeks you can see all the little animals.
