

Landmarks OF NANTUCKET!

Kaitlyn Clinger

My name is Kaitlyn Clinger and I am thirteen years old. I have lived on Nantucket with my parents, my older sister, and my twin sister all my life. I enjoy living on Nantucket because, being an island, it is unique and special. I enjoy playing basketball, softball, and field hockey. I also enjoy relaxing at the beach and spending time with my family and friends.

COATUE

Coatue is accessible by both boat and vehicle. While sitting on the beaches you have views of the boats passing by. Without Coatue, many species of wildlife would not have homes or resources.

A QUIET DAY ON MAIN STREET

Main Street with its cobblestoned streets and historic buildings is very unique. Without Main Street, Nantucket would have to find a new hub for the locals to meet or just simply watch the foot traffic pass by.

NANTUCKET GROWN

Bartlett's Farm is one of the very few farms on the island. They are known for their red, juicy tomatoes. Bartlett's Farm supplies many vegetables and plants to the public.

PASSAGE TO COATUE

Cutting through the Jetties on a boat saves time, which allows extra minutes to enjoy the atmosphere on the beach. From the beach you can sit and sunbathe, or fish for bluefish. Coatue is a quiet and beautiful piece of paradise.
