

Landmarks OF NANTUCKET!

Larissa DaSilva

My name is Larissa Da Silva and I'm in the seventh grade. I **love** taking pictures and my friends tell me that I'm really good at it. I've learned so many things from this program, such as contrast, and angles, and how different perspectives of a picture can make you feel differently towards the place. I've also become more creative and artistic!

THE UNITARIAN TIP

This is the tip of the Unitarian Church, located at 11 Orange Street. This picture was taken at an angle with the sun shining bright behind its ticking clock.

BRANT POINT

This picture was taken at an angle and you can see the light blue sky spread out behind the Brant Point Lighthouse. This picture really stands out because of the combinations of colors.

TALL & PROUD

This is the Sankaty Lighthouse. In this picture, the lighthouse is sunny on one side and casts a shadow on the other side. That really makes the picture fun to look at.

ST. MARY'S

This is one of the entrances of St. Mary's Church. This picture is interesting because it shows the stairs leading up to the entrance to the church with the church sign next to the door. It also shows the statue of Mary.
