

Landmarks OF NANTUCKET!

Leah Pearl

I am thirteen years old, and I am a native of Nantucket Island. I am an honor roll student in the seventh grade. I love to play sports like softball, basketball, and field hockey. I like to have fun with my friends and hang out with them. In the summer time I love going to the beach and swimming in Nantucket's beautiful water. I live in Siasconset, which is why I chose the Siasconset bridge for one of my landmarks. I live near Tom Nevers also, and that is why I chose Tom Nevers Pond for one of my landmarks. It is an excellent place to fish in the summer and springtime. I chose Altar Rock because I like going up there and looking down at its fantastic view.

7 O'CLOCK SUN

Looking down the Siasconset Bridge you see all of its beautiful characteristics. The sun shines down on it in the morning light. The fascinating sundial is shown in the early hours of the morning.

BLUE MORNING DEW

The blue skies have all the different shades and colors of blue, behind the beautifully white Siasconset Bridge. The morning lights shine down making the whole scene brighter and more vibrant.

NANTUCKET RED

Nantucket colors come out of the bushes. Tom Nevers Pond is a beautiful sight, as you can see. The size is just right. The geese and birds hang around thriving on the pond's fish or they just rest and enjoy the pond's great atmosphere.

COLORFUL ROCK

At the sight of Altar Rock you can see the memorial plaque clearly on the rock. The rock brings out brilliant shades of color like Nantucket's own Nantucket Red and other original colors of Nantucket are in the rock.
