

## Landmarks OF NANTUCKET!

# Nikita Pratts

My name is Nikita, I've lived on Nantucket for almost three years. I have four brothers and three sisters. I love fashion and I love being with my family and friends. I love to dance and act goofy. I love making people laugh.

### NANTUCKET COTTAGE HOSPITAL

This picture is of the Nantucket Hospital. I like this photo because it has a nice angle and the time of day gave it good light. This is one of my landmarks because if there wasn't a hospital on Nantucket then more people would die of illness here.

### NANTUCKET OLD DAYS

I like this picture because it not only shows a landmark, but also that Nantucket is getting busy. I chose this landmark because people go to the Whaling Museum to know about Nantucket in its whaling days.

### WHERE EVERYONE GOES

I took this photo because it is a landmark that everyone can relate to. I like the angle that I took this picture at because it shows some of the restaurants on the strip and how cars get packed up there.

### MAIN STREET COBBLES

I chose to take a picture of the cobblestones because it's something that everyone thinks of when they think of Nantucket (other than the fact that it's an island).
