

Landmarks OF NANTUCKET!

Stephen Reis

My name is Stephen Reis and I am in the eighth grade. I am a Nantucket native and I love to explore Nantucket. I love to play sports like hockey, lacrosse, and football. Without sports, I don't know what I would do. I enjoy growing up on Nantucket. I can't imagine growing up in another community.

LOOKING DOWN AT STEPS BEACH

Standing at the top of the steps and looking out, it makes you appreciate summer. It makes you want to run down to the beach full speed and play in the sand and swim. It is peaceful because of the water, sand, dunes, and native plants. There is no way any man-made object can have the same effect.

ATHENEUM

Looking up at the bold, gold letters of the Atheneum and the marvelous pillars, you can see the immensity of the building. It is an extremely historical place in Nantucket's history—as many famous people have given speeches there.

JETTIES ROCKS

Standing at the beginning of the Jetty, and looking at the rocks that extend out to protect our harbor, you are amazed by the difficulties it must have taken to build it. The dark blue water, and the light blue sky, is separated by the brown rocks. That sight is irreplaceable.

THE HUB

Looking at The Hub, you can see the old Nantucket from the sign and the simple brickwork. It has been there for ages. When some people think of The Hub, they automatically think of the whole town. For many people, it symbolizes Main Street. The Hub has everything from candy to newspapers.
