

Landmarks OF NANTUCKET!

Cara Garufi

My name is Cara Garufi, and I am twelve years old. I enjoy playing soccer, swimming, running, biking, and playing piano. I would like to be a physical trainer or doctor when I grow up.

BRANT POINT'S SIMPLICITY

I think this picture shows the simplicity of Nantucket, and the true charm of Nantucket, and why we love it.

COMPASS ROSE DIRECTORY

To me, this picture is special because it shares its destinations with us and how far away the destinations are. This picture is unique and not many towns have something quite like this.

THE HADWEN HOUSE COLUMNS

This picture represents the Hadwen House's greatness. The large columns appear so large and the shadows of the trees create a wonderful effect on the building.

A HOUSE ON STILTS

To me, this picture represents Nantucket's uniqueness and how different it is from other places. When you break it down, the house, the water, North Wharf, and the rocks beneath the house create a special and unique picture.
