

LANDMARKS OF NANTUCKET!

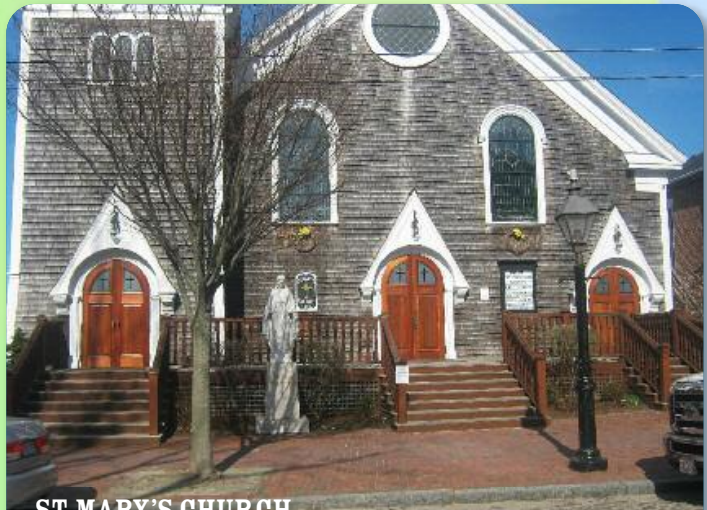

Gilberto **TEJADA**

I am El Salvadoran, but I was born in Boston. The best thing about Nantucket is that I can go by myself anywhere and nothing bad happens (like in the city where you can get hurt easily). Here on Nantucket I can walk to anywhere I want to. I love Nantucket I and have lived here most of my life.

OLD MILL ARM

The Old Mill is an important place because a long time ago it used to grind corn.

ST. MARY'S CHURCH

St. Mary's is an important place to me because I come here every Sunday and it is more than 100 years old. The statue is beautiful and the inside is nice too.

MONUMENT

This is the Civil War Monument. This monument honors Nantucketers who served in the Civil War. I like the design and that it represents people who were in the war. When I captured this picture, I had the perfect moment. There were no cars or people in the way and the sun was hitting it from a great angle.

WINDOW DOOR

This is my favorite picture because the design of the window and door is a medieval design used in medieval times. This picture is also cool because this house is really old.
